

Patrycja Panasiuk

aspiring front-end web developer

Summary

I am looking for a job as a front-end web developer that will let me work with passion. I have been learning CSS3, SASS, HTML5, JavaScript and React for a few months already. I am a creative, honest, responsible, hard-working person who knows how to cooperate in a team. I like setting ambitious aims and do my best to achieve targets. I am not afraid of hard work and always willing to learn new skills in order to enhance my abilities.

Education

2013 -
2019

Civil Engineering (Bachelor of Engineering), Lublin University of Technology

During my studies I was a year-representative , I got a scholarship and took a part in a few national championships in volleyball.

Diploma thesis topic: *"The structural project of a self-sufficient timber frame house on "Rajska" island in BIM technology"*.

The project was designed in programs: Revit, ArchiCad, Robot Structures.

2012 -
2016

Landscape Architecture (Bachelor of Engineering), Lublin University of Life Sciences

Specialisation: architecture of parks and gardens

The theme of an engineering thesis: *"Green roofs"*

Experience

2018-08 -
2019-05

Schneider Fassaden, Stimpfach, Germany

design engineer

The position was consisting in designing facade constructions - devising suitable solutions, preparing executive drawings, team working. The project was located in a bussiness suburb of London and has 58 storeys. The area is approaching to 50k square meters. Engineering programs: AutoCAD 2D/3D, Rhino.

2018-01 -
2018-06

TAIR, Lublin, Poland

constructor assistant

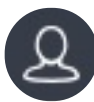

The role was based on doing an executive documentation of energy saving, wooden, prefabricated family houses. The construction was referring to our own sketches or architectural drawings from a company that we were cooperating with. The structure was made of STEICO System.

Programs: AutoCad, Soldis, Steico Xpress.
